# David Boyd

Prof. David Boyd is an award-winning educator, transformational linguist, motivational speaker, published translator, successful business consultant, and certified life coach. He has spent over a quarter century researching the timeless truths of ancient Chinese texts to blend them with contemporary self-improvement practices. Over the past fifteen years, he has mentored thousands of international students and military officers in the realm of character and leadership development and cross-cultural competency. As host of "Warrior: The Art of War for Life ~ A Podcast on Winning," he shares leadership lessons, motivational mindsets, empowering principles, success strategies, and transformational tactics from Sunzi's (Sun Tzu's) Art of War. His core tenets are that each of us is a powerful being with a profound purpose on this planet -- we have great gifts to give the world and that there is ALWAYS a way to get from where we are right now to where we want to be in any area of our lives -- there is always a way forward, a way onward, a way upward. There is always a way through, a way around, or a way out of any challenge or circumstance we may face. It doesn't matter how long we've been stuck or how many times we've tried and failed! We may not always be able to control what challenges come into our lives, but we can always control how we choose to respond.
